AL JUBAIL

King Abdul Aziz Road, District Al Safa
Al Jubail 35514, Saudi Arabia

A complete index of project support services.

01 Rental Equipment

Cranes, forklifts, man-lifts, telehandlers, generators, compressors, excavators, loaders, pumps and welding support equipment.

02 Manpower Supply

Engineers, technicians, supervisors, foremen, operators, skilled laborers, riggers, welders, fitters and fabricators.

03 Construction

Construction support for industrial, commercial and infrastructure requirements.

04 Safety Materials

Project safety materials and site essentials coordinated around operational needs.

05 Plants & Construction

Plant-related construction support for industrial environments.

06 Mechanical Fabrication

Mechanical and steel fabrication support for workshop and site requirements.

07 Electrical & Instrumentation

Technical support for electrical and instrumentation project scopes.

08 Industrial Plant Maintenance

Maintenance and shutdown support for industrial facilities and related assets.

09 Safety Works

Safety-related site work support aligned with the project scope.

10 Contracting

Integrated contracting support bringing together execution, manpower, equipment and materials.

11 Material Supply

Project material supply for construction, maintenance and industrial requirements.

12 Industrial Services

Multi-discipline support across industrial project environments.

13 RTR / FRP / GRP Piping

Fiberglass piping fabrication, erection, repair, installation, maintenance, testing and commissioning support.

RESOURCE 01

Manpower Supply

Project manpower support across engineering, supervision, technical trades, operations and project-support roles.

ENGINEERING

Construction, civil, piping, instrumentation, mechanical, electrical, planning, safety and quality engineers.

SUPERVISION & CONTROL

Supervisors, foremen, project controllers, superintendents, material controllers and inspectors.

TECHNICAL TRADES

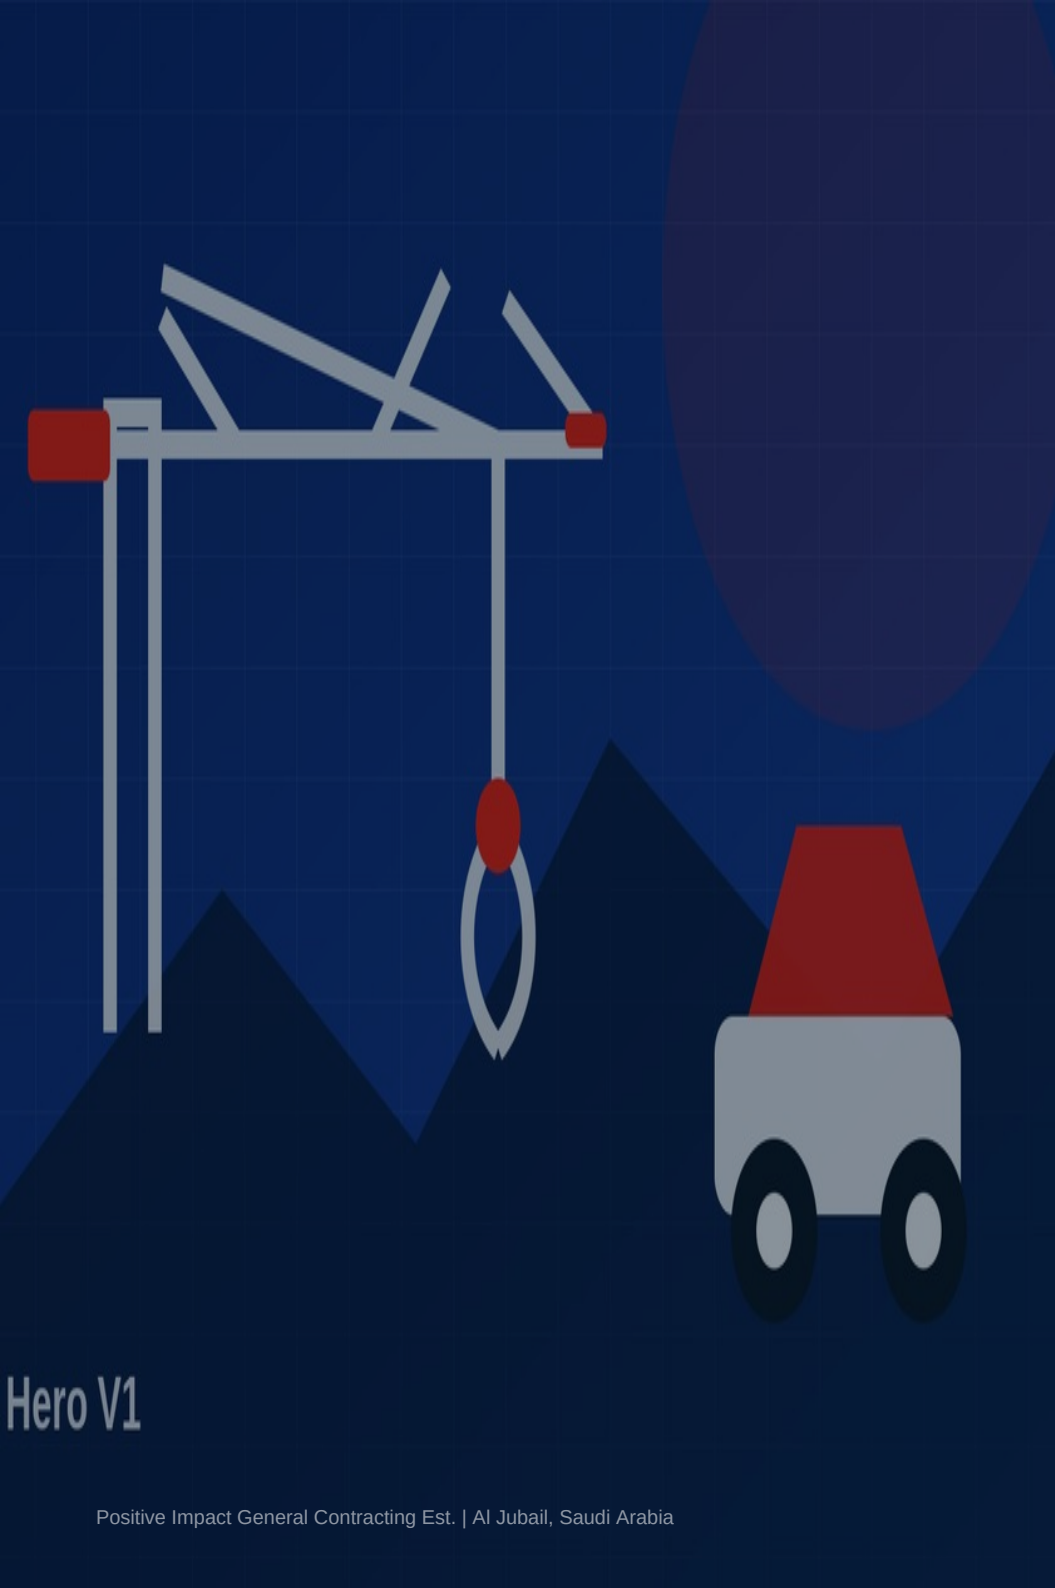

Technicians, operators, riggers, welders, fitters, fabricators, scaffolders and painters.

PROJECT SUPPORT

Technical and executive secretaries, data entry, purchase, network, systems and programming roles.

Hero V1

RESOURCE 02

Equipment Rental

Construction and industrial equipment categories coordinated around the submitted project requirement.

01 Cranes

03 Man-lifts

05 Tower Lights

07 Diesel Generators

09 Excavators

11 Welding Rotators

13 Welding Column & Boom

15 Dewatering Pumps

02 Forklifts

04 Telehandlers

06 Air Compressors

08 Wheel Loaders

10 Vacuum Trucks

12 Welding Positioners

14 Vibratory Hammers

16 Construction Equipment

CONSTRUCTION & CONTRACTING

Integrated support for defined work packages.

Construction and contracting scopes can combine site execution, manpower, equipment and materials around the needs of the project.

Construction

Civil and site-support activities for industrial, commercial and infrastructure work.

Contracting

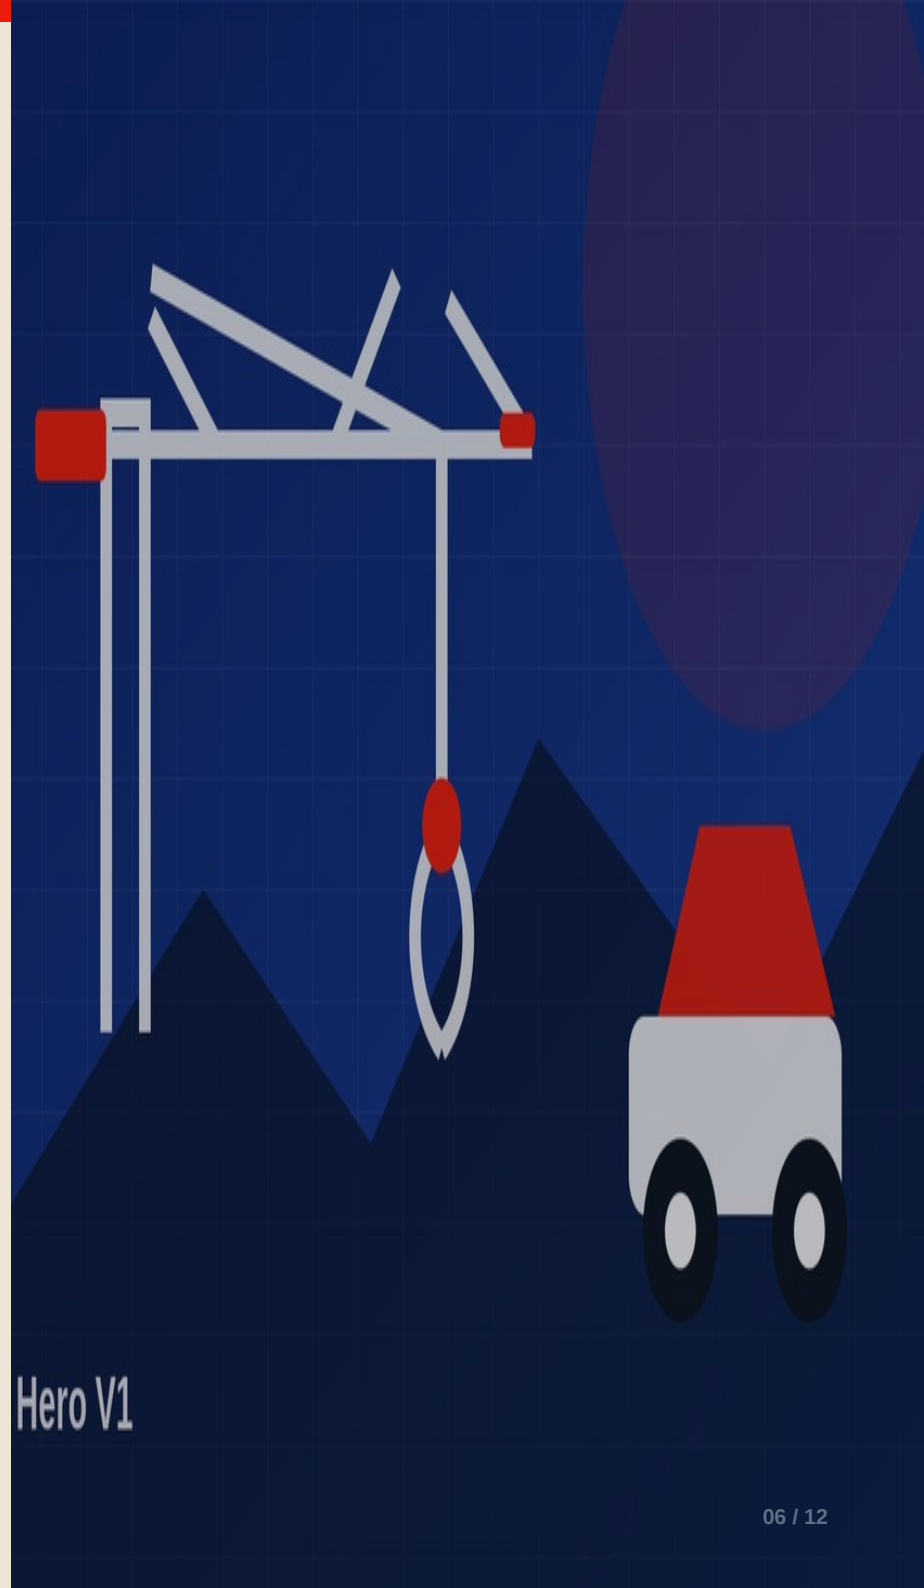

Coordinated project-package support across execution and resources.

Plants & Construction

Plant-related construction assistance in industrial environments.

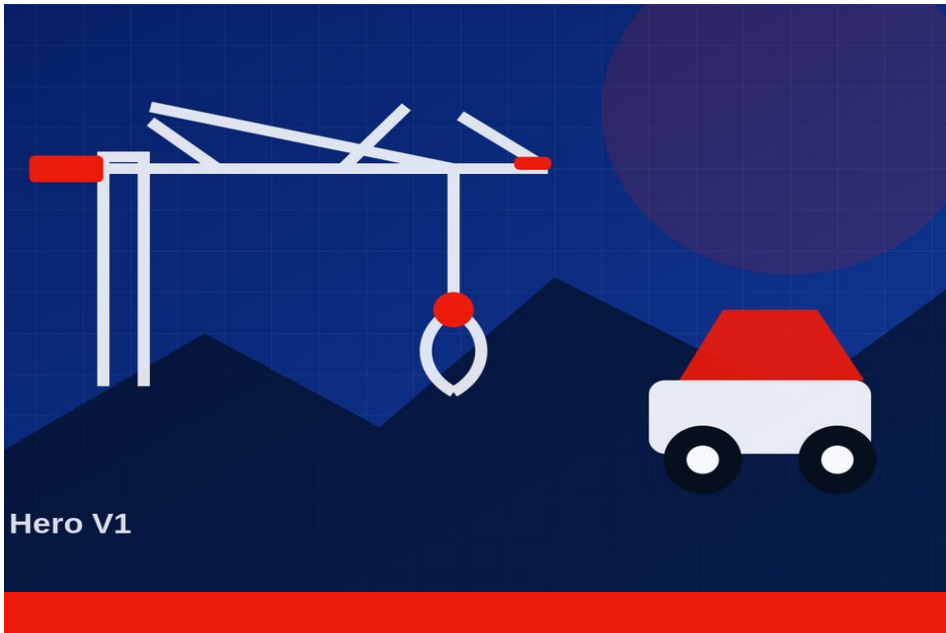

Material Integration

Resource planning that can connect manpower, equipment and material supply.

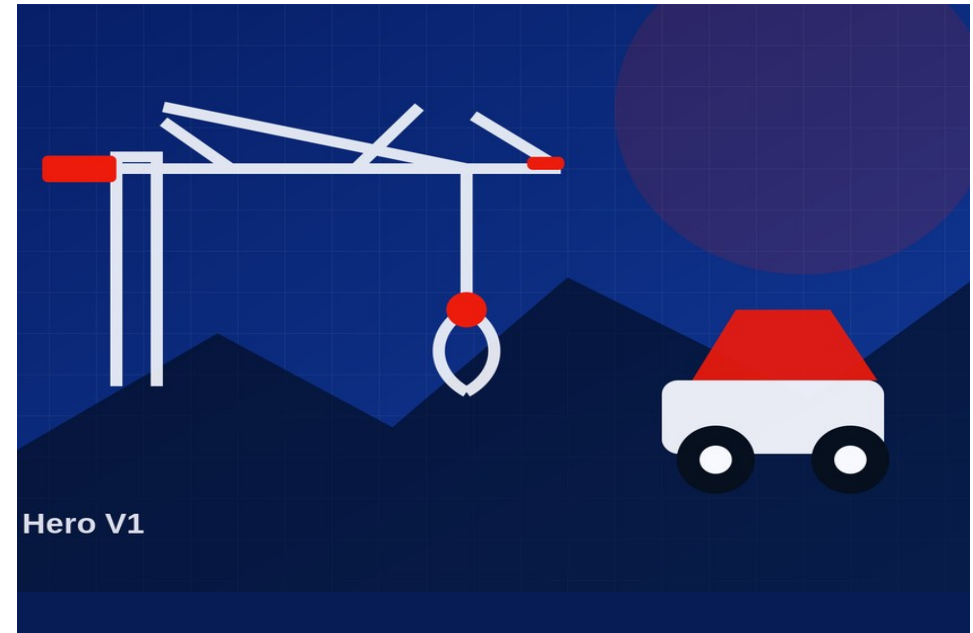

TECHNICAL SERVICES

Mechanical fabrication, electrical and instrumentation.

Mechanical Fabrication

Mechanical and steel fabrication support for workshop and site requirements, including welding and fitting assistance.

Electrical & Instrumentation

Technical support for electrical and instrumentation work in construction, maintenance and industrial plant environments.

INDUSTRIAL SUPPORT

Plant maintenance and multi-discipline industrial services.

Support across industrial plants and process facilities, including maintenance, shutdown assistance, technical resources and site coordination.

Maintenance of Industrial Plants

Routine maintenance, shutdown and turnaround support for industrial facilities and related assets.

Industrial Services

Multi-discipline support combining manpower, equipment, technical work and site coordination.

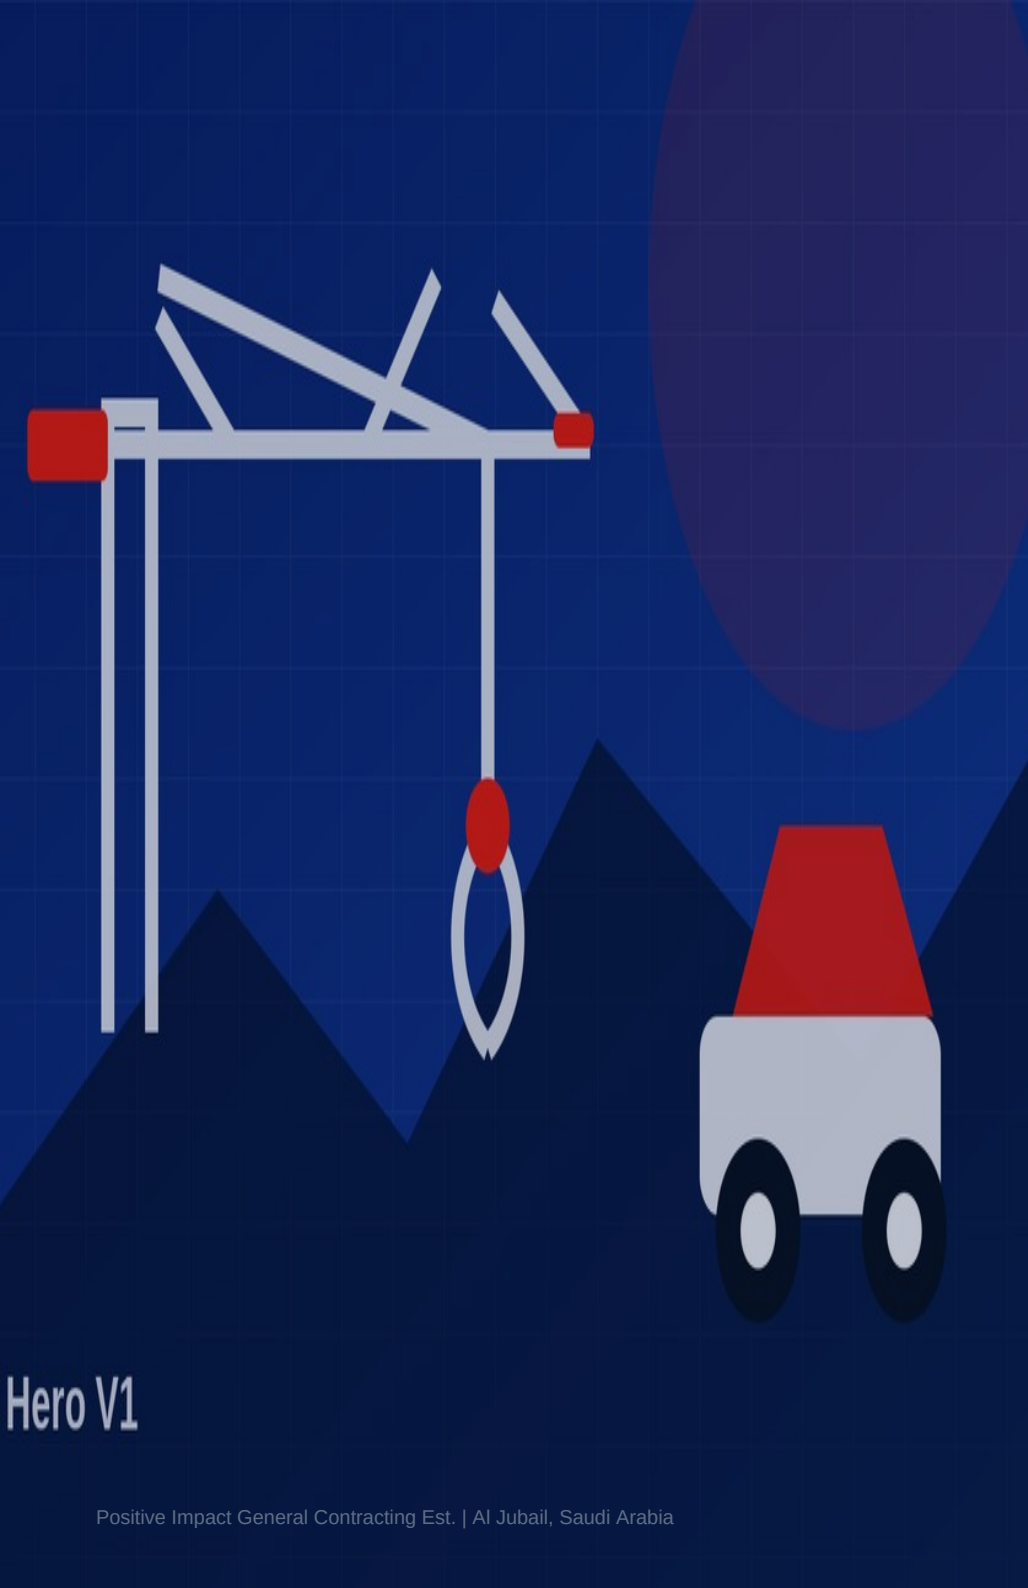

Safety Works

Safety-related site work support aligned with the submitted project scope.

Project Integration

A single service structure connecting construction, technical, supply and resource requirements.

Hero V1

SPECIALIZED CAPABILITY

RTR / FRP / GRP Piping

Fiberglass piping support covering fabrication, erection, repair, installation, maintenance, jointing, inspection, pressure testing and commissioning.

01 Spool prefabrication

02 Site installation

03 Coupling and lamination joints

04 Adhesive and key-lock joints

05 Inspection and supervision

06 Hydro / pneumatic testing

07 Pre-commissioning

08 Commissioning support

Hero V1

Materials and work support for active sites.

Safety Materials

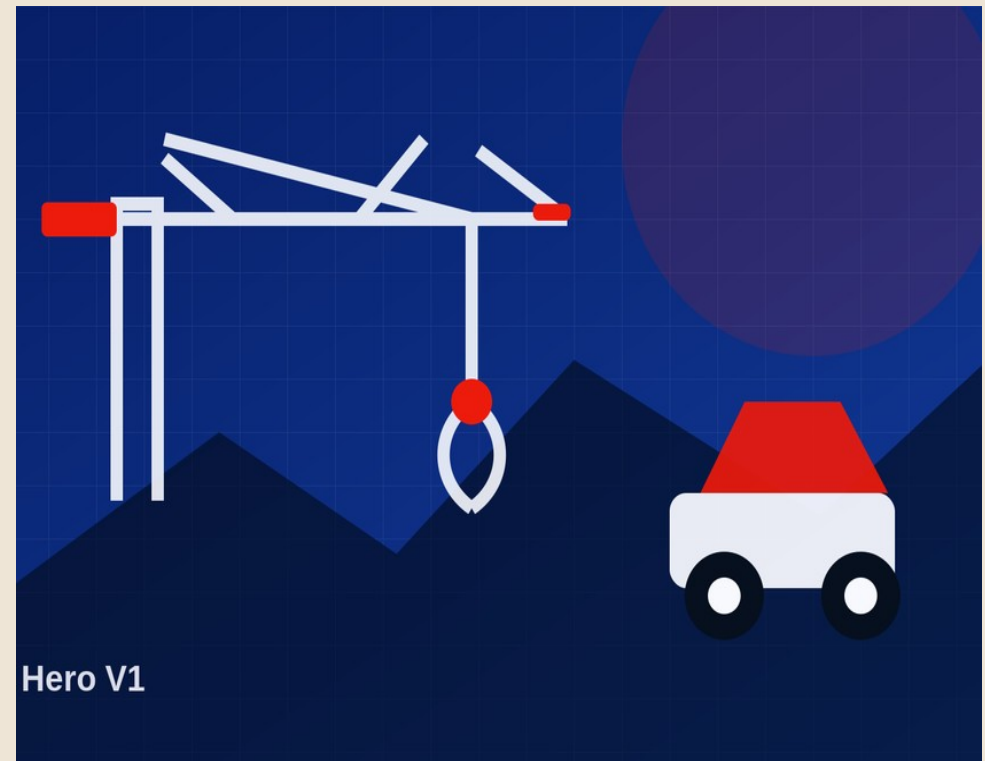

Supply coordination for project safety materials and site essentials.

Safety Works

Safety-related work support for construction and industrial environments.

Material Supply

Project material arrangements for construction, maintenance and industrial requirements.

Supplied organization marks are included in the website.

Five new client logo files were supplied through external Cloudinary links. The interactive website presents those original links. This offline PDF records them as client-supplied assets without inventing organization names or endorsements.
